

PROJECT

AI - CHATBOT DEVELOPMENT

GROUP DETAILS

Project 1) Group No. 3

Group Members :-

- 1) Swara Manoj Khatate
- 2) Utsavi Ganpat Mohite

Project Information :-

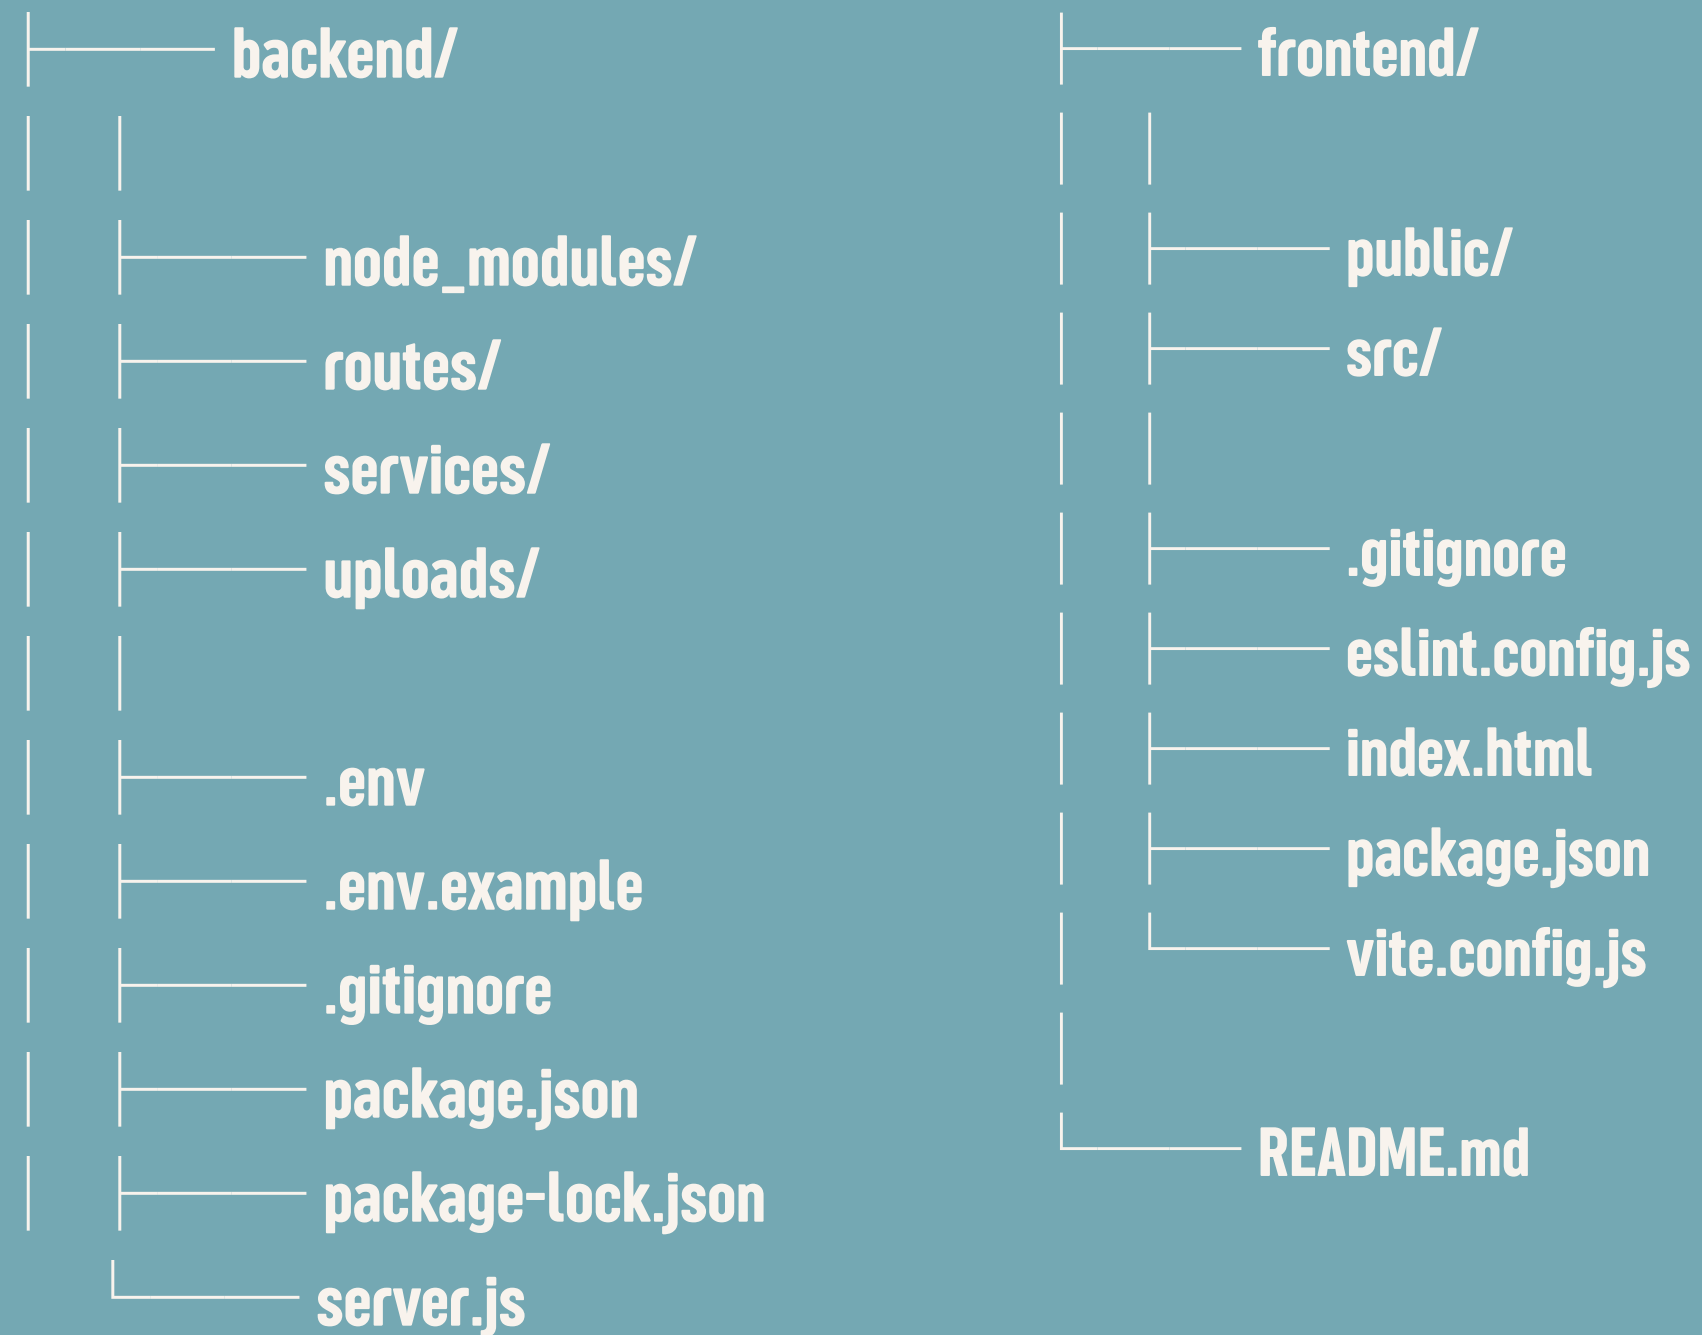

AI-CHATBOT-DEVELOPMENT

An intelligent AI-powered chatbot built using React.js, Node.js, and Google Gemini API that enables users to upload structured datasets (CSV/Excel), process them through an NLP pipeline, and ask questions in natural language. The chatbot extracts meaningful information from uploaded files, constructs context-aware prompts, and leverages Google's Gemini models to generate accurate and conversational responses.

Core Tech :- Node.js , React.js , NLP , Git/GitHub

Repository Link :- <https://github.com/utsavimohite-arch/AI-Chatbot-Development>
